

CCSVI

Sanoviv Medical Institute

CCSVI Diagnosis and Treatment

10 night program

\$18,000

(includes 8 nights for the CCSVI Diagnosis and Treatment, and one night each for two month and six month follow up visits)

Arrivals Mondays and Tuesdays

Research and diagnoses of people living with Multiple Sclerosis (MS) shows a significant percentage have narrowing (stenosis) of certain neck veins. Stenosis may be treated the same way arterial blockages are treated, with balloon intervention to open the veins.

Sanoviv's CCSVI program is based on the research of Dr. Paulo Zamboni, with diagnosis, treatment, and follow up at our integrative health institute. Our team of doctors strongly recommends the Neuro Repair Program to prepare for and to heal from the diagnostic assessments and treatment, as well as to optimally treat other areas of the body affected by MS.

Special Package

3 week Neuro Repair Program
including CCSVI diagnosis and treatment

\$36,000

Our Medical Team strongly recommends all guests experience the Neuro Repair Program at the same time as the CCSVI diagnosis and treatment for optimal healing. The Neuro Repair Program is designed to maximize oxygenation to aid failing nerve cells and restore their function, as well as to help the body recover fully from the CCSVI diagnosis and treatment process. The Special Package saves you \$5,000.

The scenarios listed on these pages are examples of possible tests, medical treatments, and therapies you may receive during your program. Each guest is treated according to his or her unique symptoms and needs. Your program will vary depending on the results of your health assessment as indicated by your medical team. After your assessment, your medical team may determine if additional tests and/or consultations are needed.

The following are examples of services not included and will necessitate an additional fee. Additional x-rays, additional testing, scans, stress test, external consultations with specialists, and surgeries. Additional services are only ordered upon your approval.

There are a specific number of diagnostics, therapies, and treatments included in each program. However there may be modifications made to the type of therapy, number of treatments, and their duration depending on your individual health assessment as indicated by your doctor. The program is sold as a package. The number of therapies indicated is the maximum number allowed before there will be an additional charge.

There are no refunds, exchanges, or transfers of any diagnostics, treatments, classes, or therapies modified during your program.

All of our programs include room and board for the guest. If you wish to come with a companion, the cost is \$100 dollars per night (occupying the same room).

This includes meals, juices, use of our salt-water therapeutic pools, and group classes. Additional spa treatments, salon treatments, colonics, etc., can be purchased, upon availability.
